22 WPC Interactive Poster Plaza
Stand No: Level B4

The expert technical posters from the Forum sessions will be presented at the Interactive Poster Plaza, an exclusive stand in the World Petroleum Exhibition, showcasing detailed analysis and expert overview from the Technical Programme of the 22nd WPC. All participants will be able to attend the Forum Poster sessions at set times, and have interaction with the Authors or view any of the presentations any time from the interactive screens placed at the center of the Interactive Poster Plaza. The Interactive Poster Plaza will include 4 topical blocks, a coffee stand and lobby, which will become a meeting place for visitors and communication point with authors.

22 WPC Social Responsibility Global Village
Stand No: Level B4

Address: World Petroleum Council, Suite 1, 4th Floor, 1 Duchess Street, London
E-mail: sr@22wpc.com
Telephone: +44 (0)20 7637 4995
Website: www.22wpc.com/csr.global.village.php

The 22nd WPC will feature a highly engaging and interactive social responsibility programme put together by the dedicated team of industry experts. Under the theme of “Bridges to a sustainable energy future: innovative solutions” the programme will showcase industry approaches to social responsibility and the role that the oil and gas industry plays in promoting economic and social progress of the communities and environments in which they operate. The Global Village Stand will be on The Bridge, connecting the two exhibition areas in ICC and the Rumeli Hall, positioned next to the WPC Young Professionals Lounge, they will share an auditorium and provide a wide choice of activities throughout the week. The “Social Responsibility Global Village” stand will provide a hub for networking with experts and interested stakeholders and will feature a host of activities on innovative industry approaches and SR activities, including presentations, interactive discussions, kinetic “Green Pedal” energy stations, SR Art Gallery, an interactive art panel and the World SR Globe.

22 WPC Young Professionals Lounge
Stand No: Level B4

Address: Young Professionals (YP) Lounge
E-mail: youth@22wpc.com
Telephone: +90 312 207 33 28
Website: www.22wpc.com

The WPC Young Professionals seek collaborative and innovative solutions to key technical, social, environmental and management energy challenges for future generations, guided by our values and commitments to: leadership, diversity, participation, sustainability, transparency, and excellence. At the 22nd WPC, there will be an extensive “YOUNG PROFESSIONALS PROGRAMME”, aiming to utilize youth energy and dynamism, as well as to engage youth more into the ongoing industrial activities and provide a platform to have their say. Many students, researchers and young professionals in the industry from all around the world will have the chance of coming together with about 5000 industry leaders and 20,000 visitors in Istanbul. The Young Professionals Lounge is located at the heart of the Exhibition: the Bridge which bridges the ICC Congress & Exhibition Area and Rumeli Building Exhibition Area. It is the main gathering place for young people to share their ideas and dynamism. In the context of 22nd WPC, there will also be different activities at the YP Lounge to bring the future of the industry together with the seniors:

1. Technical Tours: For one hour, discover the latest technologies and business at the major oil and gas companies of the world in the Exhibition Hall.
2. Oil Talks: You are young, you are smart and you want to share it with your peers? The floor is yours; get us dreamful!
3. Fine Tune my CV: Meet with an HR representative around a cup of coffee.
4. Mentoring Network: Mentors & mentees will come together at the YP Lounge and have chance to speak face to face. If you want to be part of this great programme, come and join us!
5. We want you: Presentation of the WPC YPC and volunteering opportunities! Join an international growing network!
6. Work Your Network & Afterwork: Come and have a drink with the WPC Young Professionals. Open to all to nurture dialogue between students, young professionals and seniors.
When AFRICA TODAY was launched 22 years ago, it was on the conviction that Africa deserved a high-quality news magazine which would give the authentic African view of Africa and compare favourably with long-established and respected news magazines but which do not, nor were ever intended, to focus specifically on Africa. AFRICA TODAY covers the whole of Africa newswise, utilising the skills of experienced journalists and, for features, the talents of experts in their various fields; to exploit the print industry's most up-to-date technology to make the presentation as attractive as possible, and develop truly Pan-African distribution. ANP Brazil – Brazilian National Agency of Petroleum, Natural Gas and Biofuels
Stand No: B108
Website: www.anp.gov.br
Address: Av. Rio Branco, 65 – 22 º andar – Centro – RJ - Brasil
E-mail: institucional@anp.gov.br
Telephone: +55 21 2112-8303
Website: www.anp.gov.br
The National Agency of Petroleum, Natural Gas and Biofuels (ANP) is the regulatory body for activities of the oil, natural gas and biofuels industries in Brazil. Among its purposes, ANP assesses the prospectivity of the Brazilian sedimentary basins, in order to indicate blocks for licensing rounds. The Brazilian National Energy Policy Council authorized ANP to hold three concession rounds (the 14th, 15th and 16th Bidding Rounds), as well as four Pre-salt (one of the most promising oil province discovered in the last decade) Bidding Rounds until 2019. This year Brazil is holding three licensing rounds with extremely prospective areas up for offer. The inclusion of attractive areas, together with the recent moves of the Brazilian Government to improve the energy policy makes Brazil one of the best investment opportunities for the worldwide oil and gas industry.

API - American Petroleum Institute
Stand No: B150
Address: 1220 L Street, NW Washington, DC 20005-4070 USA
E-mail: medinaw@api.org
Telephone: +1202-682-8000
Website: www.api.org
The American Petroleum Institute (API) is the primary trade association serving the worldwide oil and natural gas industry. API's technical standards and publications help engineers design and maintain systems and keep abreast of advances in the industry. API also offers training and certification programs to ensure professionalism, competence, and product quality.
ARAR is a vertically integrated E&P company; having 7 exploration and 2 production licences in Turkey. ARAR has 5 drilling rigs and 2 seismic crews (vibro & dynamite) ARAR management has over 35 years’ experience in upstream with the necessary know-how to successfully carry out the day-to-day management of integrated oilfield operations, seismic surveys and coordination of logistics. Our key activities include engineering, procurement, installation and commissioning (EPIC) of early production facilities.

In addition to operatorship ARAR has experience in Oilfield Services:
• Seismic data acquisition, processing and interpretation
• Drilling and workover services
• Mud logging and cementing services
• Well testing and early production facilities

ASTM International
Stand No: B176

Over 12,000 ASTM standards operate globally. Defined and set by us, they improve the lives of millions every day. Combined with our innovative business services, they enhance performance and help everyone have confidence in the things they buy and use – from the toy in a child’s hand to the aircraft overhead. Working across borders, disciplines, and industries we harness the expertise of over 30,000 members to create consensus and improve performance in manufacturing and materials, products and processes, systems and services. Understanding commercial needs and consumer priorities, we touch every part of everyday life: helping our world work better.

Bayegan
Stand No: B142

BAYEGAN, established in 1940s, is one of the fastest growing petroleum and petrochemicals trading companies in the region. With its extensive financial capabilities, the company works only on partnership basis and has more than 60 exclusive partners worldwide. By gaining new markets and customers through its offices located in 20 worldwide, it carries out an important role in converting Middle Eastern resources into economic return. The company’s position and power on the international stage have allowed it to become one of the most important players in the region. BAYEGAN registered to many national oil companies and closely cooperates with ADNOC and ENOC in the UAE, QP in Qatar, NOC in Libya, Exxon and Chevron in the US, Gazprom in Russia and many other major players in their respective geography. We a very well established distribution network which is focused in Europe, CIS, MENA and Far East. BAYEGAN trades in variety of products including Crude oil, LPG, naptha, condensate and mid-distillates, sulphur and petrochemicals. Has term contracts with major suppliers for all products.
Celebrating its 60th anniversary, Borusan Mannesmann is among the leading manufacturer of steel pipes in Europe with its 1.4 mn tons production capacity. Company has wide experience and records in oil & gas pipeline projects. Also a strong local player in North American OLTG sector.

**Botas / Botas International (BIL)**

Stand No: B320

**Address:** Haydar Aliyev Marine Terminal Gölvası 01944, Ceyhan-Adana/TURKIYE

**E-mail:** info@botasint.com

**Telephone:** +90322-3551700

**Website:** www.botasint.com

Botas / Botaş International (BIL) was established on August 15, 1974 to transport crude oil. Since 1987, it has engaged in natural gas transportation and trade activities and has become a leading company in natural gas and crude oil sectors. The Company has two subsidiary companies, BOTAŞ International (BIL) and Turkish Petroleum International Company (TPiC), and two associated companies namely Turusgaz and TANAP.

BOTAŞ International (BIL) was established pursuant to the Energy and Natural Resources Ministry’s decision on July 3, 1996 as the Company attached to BOTAŞ with the purpose of more efficient and productive participation to the both national and international projects. In 2001, BIL was assigned to operate the Turkish Section of Baku-Tbilisi-Ceyhan Crude Oil Pipeline (BTC Crude Oil Pipeline) in compliance with the international agreements. BTC Crude Oil Pipeline is the pipeline of 1776 km. length, transporting the Caspian Origin Crude Oil produced in the Caspian Sea to the world markets. Since the very first day of the pipeline’s commissioning, BIL has been operating the Turkish section of the pipeline at international standards with its outstanding team.

**BP p.l.c.**

Stand No: B165

**Address:** 1 St James’s Square, SW1Y 4PD, London, UK

**Telephone:** +44 (0) 207496 4076

**E-mail:** bppress@bp.com

**Website:** www.bp.com

BP is a global energy company with wide reach across the world’s energy system. The energy we produce serves to power economic growth and lift people out of poverty. In the future, the way heat, light and mobility are delivered will change. We aim to anchor our business in these changing patterns of demand, rather than in the quest for supply. We have a real contribution to make the world’s ambition of a low carbon future.

We have operations in Europe, North and South America, Australasia, Asia and Africa, and employ around 75,000 people.
China National Offshore Oil Corporation
Stand No: R135

Address:  No.25, Chaoyangmenbei Dajie, Dongcheng District, Beijing, China
E-mail:  haojy@cnooc.com.cn
Telephone:  +86-10 84521113
Website:  http://www.cnooc.com.cn/

China National Offshore Oil Corporation ("CNOOC"), is the largest offshore oil & gas producer in China. Founded in 1982 and headquartered in Beijing, CNOOC has maintained a good momentum of growth and has since evolved from a pure upstream oil and gas exploration company, into an integrated energy group that maintains excellence in its core business while concurrently achieving high standards amongst its diversified entities.

CNOOC covers all aspects of the oil & gas industry ranging from exploration and development, engineering & technical services, refining and marketing, natural gas and power generation, and financial services. CNOOC strives to engage in a mutually beneficial cooperation with its counterparts situated across 40 countries around the world.

Chinese National Committee for the World Petroleum Council
Stand No: B157

Address:  6-Liupukang Street, Beijing, China, 100724
E-mail:  chncwpc@wpcchina.org
Telephone:  +86 10 6206 9309
Website:  www.wpcchina.org

Chinese National Committee for WPC (ChNCWPC) was established in 1979. From its officially representing China to join in WPC organization, ChNC persists in playing an active part in all the events organized by WPC and striving to promote the cooperation and exchange not only between Chinese Petroleum industries and abroad, but also among the international and regional oil sector. The members of ChNC include CNPC, SINOPEC, CNOOC and SINOCHEN etc., which are engaging in up and down stream of oil and gas all over the world.

In the recent years, ChNC and its members pay more and more attention to the sustainable development of whole energy industry. With the support of WPC, Chinese government and the member companies, ChNC devotes itself to pushing forward the implement of energy conservation, emission reduction, energy efficiency improving, environmental protection and development of the renewable energy in China and outside. Jointly with the efforts of WPC family ChNC will go on making contributions as ever to the safe and reliable energy supplies for the sustainable development of human beings.

Cimtas (A Subsidiary of ENKA)
Stand No: B152

Address:  Balmumcu Mahallesi, Zincirlikuyu Yolu, No:8, 34349, Istanbul, Turkey

Website: www.e3-energy-events.com

Energy Events Experts – E3 – is an event management company and promoter focused exclusively on delivering and collaborating with premium trade events within the energy sector. E3 operates worldwide from its headquarters in Dubai and its senior management has more than twenty years’ experience in organising and managing business-to-business conferences and exhibitions in more than 25 countries. These events address topics and issues that are critical to the oil and gas industry both upstream and downstream. The energy events that E3 either organises or partners with are specifically designed to deliver maximum return on investment for the stakeholders, speakers, sponsors, exhibitors, delegates and visitors in addition to providing first class consumer experience. E3’s key partners include the American Institute of Chemical Engineer, the World Petroleum Council and the World Energy Council.

Energy Institute
Stand No: B437

Address: 61 New Cavendish Street London W1G 7AR United Kingdom
E-mail: info@energyinst.org
Telephone: +44 0 20 7467 7100
Website: www.energyinst.org

The Energy Institute (EI) is the chartered professional membership body for the energy sector, supporting over 23,000 individuals working in or studying energy and 200 energy companies worldwide. The EI provides learning and networking opportunities to support professional development, as well as professional recognition and technical and scientific knowledge resources on energy in all its forms and applications. The EI's purpose is to develop and disseminate knowledge, skills and good practice towards a safe, secure and sustainable energy system. In fulfilling this mission, the EI addresses the depth and breadth of the energy sector, from fuels and fuels distribution to health and safety, sustainability and the environment. It also informs policy by providing a platform for debate. The EI provides the Secretariat for the UK Committee of the WPC.
Enermak Energy, was established in 2000 by experienced engineers who are well versed in field conditions to provide solutions to infrastructure problems. Growing day by day, Enermak has become a representative in Turkey by establishing relations with the world's leading companies that produce technology. Moreover, Enermak Energy is playing an active role in pipeline technologies. We are manufacturing high quality natural gas pipeline equipment has been produced in European standards and has become an active supplier in the domestic market with its important distributorships abroad, we also giving (maintenance, repair services) in Turkey by maximizing the level of use of after-sales services and professional trainings and effective equipment in the infrastructure sector.

EVOLEN (ex GEP AFTP) is the French association for the Oil & Gas to Energy Futures of entrepreneurs and professionnals. EVOLEN's network brings together up to 1,350 members (250 corporate companies & 1,100 professionnals). Their area of expertise covers the entire oil & gas sector and towards new energies. EVOLEN promotes the technologies and industrial excellencies of the French companies around the world.

Neftegaz 2018 is the key event of the Russian oil and gas industry. It ranks among the world's largest petroleum shows. Neftegaz showcases the whole range of equipment and technologies for the oil and gas industry.

Dates: 16-19 April 2018
Venue: Expocentre Fairgrounds, Moscow, Russia
Organized by Expocentre AO, Messe Düsseldorf GmbH (Germany)
Supported by Russian Ministry of Energy, Russian Ministry of Industry and Trade
Under auspice of Russian Chamber of Commerce and Industry
Exhibition space: 50,000 sq m
Exhibitors: 581 companies (357 Russian companies); 80%+ regular participants
Gas & Power

Website: www.petroturk.com

Journal of Gas & Power; publishes on electricity, natural gas and renewable energy every 15 days and at least 24 issues a year and no less than 8,000 copies are sent to all high level addresses of the finance and energy market. You can find comments, analysis and corporate news about Turkey’s energy market in Gas & Power.

Gas & Power is a newspaper of choice for leading companies of Turkey and the world. It delivers firsthand information before others about the developments in the industry with the news it generates.

If your target audience is:
• Natural Gas Distribution Companies
• Natural Gas Import Companies
• Electricity Distribution Companies
• Power Generation Companies
• Oil and Gas Production Companies
• Renewable Energy Sourced Electricity Production Companies
• Energy Consulting and Training Companies
• Power Generation Equipment Manufacturing and Import Companies
• Senior managers in the public and private sector organizations;

Then GAS & POWER is the right publishing.

Gazprom Public Joint Stock Company
Stand No: R120

Address: 16 Nametkina St., Moscow, GSP-7, 117997, Russian Federation
E-mail: gazprom@gazprom.ru
Telephone: Tel. +7 495 719-30-01
Website: www.gazprom.com

Gazprom is a global energy company focused on geological exploration, production, transportation, storage, processing and sales of gas, gas condensate and oil, sales of gas as a vehicle fuel, as well as generation and marketing of heat and electric power. Gazprom views its mission as ensuring a reliable, efficient and balanced supply of natural gas, other energy resources and their derivatives to consumers. Gazprom holds the world’s largest natural gas reserves. The Company’s share in the global and Russian gas reserves amounts to 17 and 72 per cent respectively. Gazprom accounts for 11 and 66 per cent of the global and national gas output correspondingly.
Founded in 1919, Halliburton is one of the world’s largest providers of products and services to the energy industry. With approximately 50,000 employees, representing 140 nationalities in approximately 70 countries, the company serves the upstream oil and gas industry throughout the lifecycle of the reservoir – from locating hydrocarbons and managing geological data, to drilling and formation evaluation, well construction and completion, and optimizing production through the life of the field.

India Pavilion (NOCs of India, under the aegis of Ministry of Petroleum & Natural Gas)
Stand No: B125

Website : petroleum.nic.in

The India Pavilion at the WPC is a representation by the National Oil Companies of India, under the aegis of the Ministry of Petroleum & Natural Gas (MoPNG), Government of India. Seven companies under the MoPNG viz. Oil and Natural Gas Corporation Ltd (ONGC), Indian Oil Corporation Ltd (IOCL), GAIL India Ltd, Hindustan Petroleum Corporation Ltd (HPCL), Bharat Petroleum Corporation Ltd (BPCL), Oil India Ltd (OIL) and Engineers India Ltd (EIL) are participating in the India Pavilion. Together these companies cover the entire spectrum of activities in the hydrocarbon sector in India and are present through their subsidiaries in overseas projects as well.

Website : www.wpcjnc.jp

The Japan National Committee for the World Petroleum Council was establish as a member of WPC in 1954. The main purpose of Committee is to cooperate with the purpose declared by WPC and contribute to development of energy related industry in Japan. The Committee has its members in various domains in addition to petroleum refining and E&P, i.e., gas, engineering, chemicals, automobile, plant, construction, trading house and transportation.

Japan Oil, Gas and Metals National Corporation (JOGMEC)
Stand No: R160

Address : Toranomon Twin Building 2-10-1 Toranomon, Minato-ku, Tokyo 105-0001 Japan
E-mail : exhibition@jogmec.go.jp
Telephone : +81 3 6758 8080
Website : www.jogmec.go.jp/english/index.html

JOGMEC is a governmental organization that collaborates with governmental agencies and companies both at home and abroad with a view to secure stable supplies of natural resources and energy for Japan, while contributing to the development of resources and energy business worldwide as the duty of a large energy-consuming nation. JOGMEC strongly believes strengthening mutually beneficial relationships with resource-rich countries is essential in developing oil and natural gas resources. As a governmental organization, JOGMEC conducts various projects to support Japan's resource diplomacy, collaborating with national oil companies, and providing advanced technical training for experts such as geologists and geophysicists from producing countries.
JGC Corporation
Stand No: R110

Address: 2-3-1, Minato Mirai, Nishi-ku, Yokohama 220-600, Japan
Telephone: +81 45 682 8110

BP is a global energy company with wide reach across the world’s energy system. The energy we produce serves to power economic growth and lift people out of poverty. In the future, the way heat, light and mobility are delivered will change. We aim to anchor our business in these changing patterns of demand, rather than in the quest for supply. We have a real contribution to make the world’s ambition of a low carbon future.

We have operations in Europe, North and South America, Australasia, Asia and Africa, and employ around 75,000 people.

Chevron Corporation

Website : www.chvron.com

Chevron Corporation is one of the world’s leading integrated energy companies. Through its subsidiaries that conduct business worldwide, the company is involved in virtually every facet of the energy industry. Website : www.wintershall.com

Wintershall Holding GmbH, based in Kassel, Germany, is a wholly owned subsidiary of BASF. The company has been active for 120 years, especially in the exploration and production of crude oil and natural gas for over 85 years. Wintershall focuses on selected core regions. These are Europe, Russia, North Africa, South America, and increasingly the Middle East region. Wintershall continuously expand its business further with exploration and production, selected partnerships and innovation and technological competence. The company employs more than 2,000 staff worldwide from 50 nations and is now Germany’s largest crude oil and natural gas producer.
Get data, analysis and insights to support better, more profitable decisions.

Our experts track energy from the wellhead to the steering wheel.

Energy executives, investors, and regulators worldwide rely on Hart Energy for industry news, data, analysis and insight. Why? Because our editors, analysts, researchers and consultants use their knowledge to organize data into usable information. Our in-depth capabilities help energy industry leaders make business-critical decisions.

We deliver actionable insights.

SOCIAL RESPONSIBILITY GLOBAL VILLAGE

“Bridges to a sustainable energy future: innovative solutions”

HOW TO FIND US!

The Global Village Stand will be on the Bridge, connecting the two exhibition areas in ICC and the Rumeli Hall and positioned next to the WPC Young Professionals Lounge.

The 22nd WPC will feature a highly engaging and interactive social responsibility programme put together by the dedicated team of industry experts. Under the theme of “Bridges to a sustainable energy future: innovative solutions” the programme will showcase industry approaches to social responsibility and the role that the oil and gas industry plays in promoting economic and social progress of the communities and environments in which they operate.

Activities at the SR Global Village include:
1. **World SR Projects Initiative**

As the 22nd WPC Social Responsibility Committee, we are creating a database of social responsibility projects by oil and gas companies around the world. These projects will be showcased on a rotating globe in the SR Global Village. This database will continue to be developed after the 22nd WPC, in order to provide an overview of the industry's SR initiatives globally.

2. **Green Pedals**

The Green Pedals station in the SR Global Village helps you to create your own energy. The station uses this energy to provide enough power to charge up your mobile phone! This is a great engagement activity and a great way to combine technology and exercise together to improve the environment and raise awareness of energy consumption.

3. **Display Units**

There will be six theme stations located in the SR Global Village. Each of them will showcase a specific topic selected by the international SR Committee for the 22nd WPC. The themes are:

- Innovative Solutions
- Energy Poverty
- Ethics & Human Rights
- Environment
- Climate Change
- Local Community Engagement

4. **Informal Talks**

The Social Responsibility Global Village stand will provide a hub for networking with experts and interested stakeholders and will feature a host of activities on innovative industry approaches.

5. **Interactive Art Panel**

‘What Makes You…?’ is an interactive public installation panel designed to engage the visitor of the SR Global Village at the 22nd WPC. Using different colour threads to connect key elements on the panel, participants create multiple patterns that will form a colourful weave of personal reflection. Inspired by Dorota Grabkowska & Kuba Kolec the designers of ‘What Made Me’ project.

6. **Community Projects**

Our school children will be in the SR Global Village to showcase their unique projects about the “Future Energy Solutions” on Tuesday, 11th of July. Also, you can visit our SR Art Gallery on The Bridge and see what young people can make from old materials. The opening of the SR Art Gallery will be on Monday, 10th of July at 14.00.
A GATEWAY TO THE WORLD’S OIL AND GAS INDUSTRY

Placing focus on commercial and environmental sustainability within the oil and gas markets, the magazine features global figures and organisations that discuss all of the current and future topics related to the energy sectors. Our articles highlight growth and the latest innovations and developments within the industry, and are read primarily by CEOs, board members, ministers and senior decision makers.

When AFRICA TODAY was launched 22 years ago, it was on the conviction that Africa deserved a high-quality news magazine which would give the authentic African view of Africa and compare favourably with long-established and respected news magazines but which do not, nor were ever intended, to focus specifically on Africa. AFRICA TODAY covers the whole of Africa newswise, utilising the skills of experienced journalists and, for features, the talents of experts in their various fields; to exploit the print industry's most up-to-date technology to make the presentation as attractive as possible, and develop truly Pan-African distribution. The Energy Institute (EI) is the leading professional body for the energy industries, supporting up to 14,000 individuals and 300 organisations internationally. A Royal Charter membership organisation, the EI serves society with independence, professionalism and a wealth of expertise in energy matters, creating a home for energy professionals and a scientific and technical reservoir of knowledge for industry. Its purpose is the promotion of the safe, environmentally responsible and efficient supply and use of energy in all its forms and applications. It is licensed to offer Chartered Engineer, Chartered Scientist and chartered Environmentalist status. For more information, please visit www.energyinst.org

First Magazine

FIRST/World Petroleum is the publisher of the Official Publication for the 22nd World Petroleum Congress “Bridges to our Energy Future”. In addition to specialised publications, we also provide associated Cartographic services, Mobile Application development and Brand Consultancy for leading global Energy Industry organizations and their events. Founded twenty-six years ago, FIRST also publishes specialist periodicals, text books and reports on countries for international organizations and high level conferences. FIRST also instituted and manages its international ‘Responsible Capitalism’ Award program, now in its 16th year. Market coverage is widespread – over 50 countries. FIRST is a winner of a PPA Award for Publishing Excellence and received a Queen’s Award for Enterprise in 2013.

Gas & Power

Journal of Gas & Power; publishes on electricity, natural gas and renewable energy every 15 days and at least 24 issues a year and no less than 8,000 copies are sent to all high level addresses of the finance and energy market. You can find comments, analysis and corporate news about Turkey’s energy market in Gas & Power.

Gas & Power is a newspaper of choice for leading companies of Turkey and the world. It delivers firsthand information before others about the developments in the industry with the news it generates.

If your target audience is:
- Natural Gas Distribution Companies
- Natural Gas Import Companies
- Electricity Distribution Companies
- Power Generation Companies
- Oil and Gas Production Companies
- Renewable Energy Sourced Electricity Production Companies
- Energy Consulting and Training Companies
- Power Generation Equipment Manufacturing and Import Companies
- Senior managers in the public and private sector organizations;

Then GAS & POWER is the right publishing.
Hart Energy

Address: 1616 South Voss Suite 1000 Houston, TX 77057 USA

Website: www.offshore-industry.eu

Offshore Industry magazine has built up a strong reputation with its readers among operators, marine contractors, offshore construction companies and their subcontractors in offshore oil, gas, decommissioning and renewables. OSI is distributed to operators, marine contractors, offshore construction/decommissioning companies and their subcontractors. In many European countries including Norway and the UK as well as the Asia-Pacific region, Brazil and other markets, managers, engineers and buyers choose OSI for its informative editorials, rich photography and high-quality production.

Published bi-monthly by Yellow & Finch Publishers, OSI covers:
- Decommissioning
- Subsea construction
- Heavy lift transport & installation
- Platform & floating asset fabrication
- Offshore shipbuilding

Oil & Gas News (Al Hilal Publishing & Marketing Group)
Stand No: B510

Website: www.oilandgasnewsworldwide.com

Oil & Gas News – OGN - is the only monthly energy journal covering all aspects of the upstream, midstream and downstream sectors. OGN provides a unique insight into these key industry sectors covering the GCC and International energy markets.

Over more than three decades OGN provides authoritative information, business intelligence, country reports and quality analysis to industry professionals, stake holders and those with a serious interest in exploration, production, refining, downstream, chemicals and industrialisation.

The OGN website and daily newsletter has an abundance of news on industry developments, contract information, new technologies as well as new industry processes and the latest developments in alternative energy.

The journal is read by energy industry professionals in more than 70 countries with OGN available in printed and online editions, which are updated by a daily newsletter to keep readers informed of the latest developments across the sector.

OGN; printed editions and online at www.oilandgasnewsonline.com.
Oil & Gas Eurasia (OGE) is Russia's No.1 oil and gas technology magazine for operators, service and supply companies. OGE was first to use a bilingual format to connect local buyers with global sellers in the world's largest oil and gas region outside OPEC. OGE was the first Russian-based publication to audit its circulation. OGE is still BPA's only Russian member. OGE's parent company, Eurasia Press, also publishes Eurasia Offshore.

Petroleum Africa

Petroleum Africa is the magazine of choice for African governments, NOCs and their international partners. Each issue is dedicated to providing in-depth upstream and downstream coverage of key issues affecting the fast-paced oil and gas industries of Africa, the last great exploration frontier. Its broad-based coverage and analysis of current activities provides you with the latest news, an African country focus, exclusive interviews, local impact coverage, technology updates, company profiles, and essential political reviews.

And for daily news from the continent www.petroleumafrica.com offers the latest information as it happens, magazine articles, event calendar, industry links, and much, much more.

Petroleum Economist

Petroleum Economist has written about energy, its politics and economics since 1934 and explained some of the industry's biggest disruptions.

In an age of free information, decision-makers need impartial, reliable and rigorous sifting of fact from fiction. They need solid analysis, presented in a way that makes it quick to absorb. They need genuine intelligence from high-risk areas. They will find all this in Petroleum Economist.

Readers rely on our essential insight and intelligence to form commercial strategy, whether they lead state-owned or privately held companies. Governments read and talk to us because we explain policy clearly and intelligently – Petroleum-Economist.com

Scandinavian Oil-Gas Magazine

Scandinavian Oil-Gas Magazine is your premier source for in-depth information on developments within the oil and gas industry in the North Sea and the European petroleum province. Published in Norway, the magazine covers all areas of the offshore oil and gas industry. With its broad scope, Scandinavian Oil-Gas Magazine provides its readers with a unique window into global oil and gas activities in an era of continuing change and maturity within the industry. 2017 marks the 45th year that Scandinavian Oil-Gas Magazine has been published – making it Europe's first energy magazine.
